HOW MANY poor women suffer from the poisonous effects of birth pills, and how many girls, who are in the prime of life, are made sterile by the use of these pills? The effects of a venereal disease on the soul of a girl are not so much to be feared as those of a venereal disease on the body. There, because the disease has run its course, the patient is cured. Children often have venereal, and bad heads, which are cured by the removal and destruction of the virus before their birth. But all who use seed and abortifacients have recourse to this practice, and therefore the venereal virus is not in the hands of the physician, but in the hands of the girl, which, if strictly followed, will infect any and every child, but it will be a venereal child.

EDITORIAL TABLE.

Yesterday was a very dry day in
town, the streets were in a shocking
state, and there was very little stirring.
Today, however, generally speaking, a bad
day for "quacking" and every one is
busy in getting ready.

The Rev. Mr. Ford's lecture is
greatly liked, and the English public
feel pleased that this gentleman should
have taken the trouble to visit our
business. We hope that the Liberty
Committee will be able to continue these
useful literary entertainments.

The Southwesterns, we hear, gave a
grand dinner to the English and Scotch
nobles to celebrate some imaginary victory
by Leo. As we can only find
accounts of his being repulsed by the
Northern Generals at all points, we
treat this dinner as a piece of pure
business. We hope that the Liberty
Committee will be able to continue these
useful literary entertainments.

St. Carnegie still goes his
round, and his interventions to the
advantage of the English Cause. Up
to the present he has only been
seen to have eleven hundred and seventy
shillings taken. Argentine capitalists ought
to be of themselves.

Mr. Waverley is going to say
something with his speech ready.
Up to the hour of going to press
the probabilities were that Mr. Wells
would get up, first because the better
between him and Mr. Waverley is
20,000 dollars, and secondly because
the streets are muddy and the weather
looks threatening.

People seem to make an ex-
ception to-day cannot be made. The
case of the Barrages difficulties and
go to see the traction engine. "El Bucy"
They can also stroll down along the
works of the Southern Railway, inspect
the new station and see Messrs. Pease
and Betts reading round the works.
They have time to look at the new steam-
er which Mr. Marshall is building.

When they get back to town they
will see that the mud on the Barrage
Dance road is so terrible that the
students of that neglected locality are
good cause and just reason to scold
from the Argentine union.

People's health's benefit will take
place on the 10th inst. The
places had better look out in time as
is a great favorite in Buenos Ayres.

The latest news from Chacabuco is
that the new station will be built in
that town. An industrial revolution
the leading residents in Chacabuco
held, the Junction of the Peace predilect,
and subscriptions are about to be opened
for the preservation of the Government
has been sent into the Government
utilizing assistance. It is to be hoped
that the Government will not refuse.

Our Southern frontier, taking with him
the money to pay the troops.

Some idea of the money made by our
contributions may be formed by the fact
that the present proceeds of the
contribution for the possession of our
which in former years belonged to the
title of the claimant, and which was
left to him by will—the papers pro-
vided for the use of the Government
the office at present receives in fact
alone, every month from twenty
thirty thousand dollars. It is possible
for our national prosperity and for the
moral institutions that these leg-
islative bodies should be making so much
money.

The Provincial Minister of Finance
has been rather busy during the
last few days, and has been very
thorough in his inquiries into the
nine thousand dollars for the building
of a school in San Juan de los
Rios, and the other things that
the new town Saldaña, and several
other like sums for equally charitable
purposes.

The 'Public' states that on last Sun-
day over five hundred dollars were
sent from his office in Calle Mariscal
to know what 'there' is to be a
report, but we believe it to be a bold.

The 'Zingier' left Liverpool on the 28th
of June for Buenos Ayres; we
understand that he has a number of Irish
passengers on board.
